Step 2 - Click on the word “HOSTING” or the button that says “Get Hosting”

A screenshot of the Godaddy website's hosting page. The main heading is "Domain Names and HOSTING", with "HOSTING" in a large, bold, orange font. Below the heading, there is a promotional message: "Get 1 year of hosting and a FREE domain name when you purchase a new hosting package from Godaddy. GET STARTED NOW!". A list of five questions with orange arrow icons is displayed: "Unlimited bandwidth with massive storage, 300GB?", "Dozens of apps including WordPress?", "What if I already have a website or hosting?", "How long does it take?", and "Which hosting plan do I need?". At the bottom of the screenshot, there is a prominent orange button with the text "GET HOSTING" in white, which is highlighted with a red rectangular border.

Step 3 - Select your package. If you are planning on hosting 1 website then in most cases the **economy** package is the best option, but you should read the features and benefits of each package before making a selection.
